Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

The prior art does not teach or suggest the use of providing a white compensator propagating non-diffused neutral light at a preset color temperature independent of color temperature of the color image to counteract ambient illumination when viewing the electronic image. The prior art further does not teach a white compensator that is positioned relative to the image display to overlap the non-shielded display and the non-diffused neutral light.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
